

الشركة التجارية للهندسة الصناعية
Ind. Eng. & Trad. Co.

Company History Overview

The Industrial Engineering Trading Company [IET], was founded in 1967 by Chemist **Galal Mohamed El Saharty**. It's Activity was limited to Glass products trading; which are produces by local workshops, for hand-made glass, and small factories such Yassin Glass .

In 1968, due to the changes in the market's needs and the economic situation, as a result of the industrial revolution, a call of comprehensive renovation and foundation of new Production lines start.

In 1989, we expand our activities and add more Production requirements supplies, such measuring instrumentations, temperature controller, and many other Automation system supplies, which is used in all type of industries as example: Pharmaceutical, petrochemical, cement, plastic, ceramic, packaging, food & beverages ... and others.

IET is the first commercial representative company in the Middle East Area, working as agent and distributor for major international companies in this filed.

We supply a full range of industrial essentials, including metal belts, industrial fans, thermocouples, workshop equipment, cutting, polishing, and grinding tools,

all designed to meet the demands of various applications and tough surfaces such as steel, stainless steel, aluminum, bronze, copper, granite, and more.

We can supply all types of your production needs across multiple industries, ensuring durability, efficiency, and high performance.

Whatever your factory needs, you can contact us and we will either provide them or assist you in sourcing them.

You can always rely on us to meet your factory's production requirements with efficiency, speed, and reliability.

Mohamed Galal El-Saharty
Chairman
